

Board Resolution by Circulation 2017.1

Amending the CPR*south* Charter

Background:

Over the past few years, major changes have been implemented in CPR*south*. We are now a single organization focusing on Africa and the Asia Pacific. The Board membership has been broadened. However, the Charter has not been revised to reflect the new structure. I now seek to remedy that.

According to Clause IX of the Charter (as amended in 2010), “The Board may amend this Charter with a two-thirds majority at a meeting which has been convened with two-months notice, including prior notification of the specific amendatory proposals.”

Therefore notice is hereby given that a motion to amend the Charter shall be placed before the next Board meeting.

The proposed text is given as Annex 1 below. The material changes are:

1. Broadening the subject matter of CPR*south* activities from simply ICT policy and regulation (new Clause II).
2. Remove vestiges of original regional-chapter model (i.e., separate but cooperating units for different geographical areas) and fully embrace the new model of a single organization focusing on Africa and the Asia Pacific. (Deletion of Clause IV of Charter as amended in 2010, available at CPR*south* website)
3. Clarify the start and end dates of terms of Board members (new Clause IV).
4. Stylistic improvements to the text, as may be seen in track mode of this document.

Action

Unless amendments are proposed in response to this circulation, the following draft will be voted on at the next Board Meeting, hopefully in September 2017.

Unless you wish to submit amendments to the proposed text, this serves as notice of the Charter amendment as required by the Charter.

No specific action is required.
