

Board Resolution by Circulation 2010.5

Susan Kline as one of the two judge of the best paper competition

Background:

Board resolution by circulation 2008.X stated that the judges of the best paper competition would be the two board members who would also be the panellists for the senior scholar session. However in order to preserve the impartiality of the best paper competition, the judges refrain from being a part of the review process. This has caused considerable strain on review process.

Proposal

A solution may be to appoint Susan Kline, PhD, as judge. Susan is already involved in *CPRsouth* as the communications expert providing comments to all the paper presenters on their presentations prior to the conference. As such she reads all the conference papers and policy briefs before providing the comments on the presenters.

Appointing Susan as one of the two judges of the best paper competition will enable one more Board member to be part of the review process.
